

National Pension Scheme (NPS)

is a retirement investment option governed by PFRDA, to enable a regular income post retirement.

Few NPS Features are:

- Assured annuity (pension) after turning 60
 - 60% of the accumulated corpus at age 60 can be withdrawn and its tax free
 - The rest 40% will be invested in a pension plan and pension is taxable
- Choice of investments like Stocks, Corporate bonds, Government bonds etc
- Opportunity to get higher returns
- Higher tax benefits

Check out the NPS calculator to know

<http://www.npstrust.org.in/content/pension-calculator>

- Approximate amount of corpus that can be accumulated at the time of maturity
- Approximate amount of monthly pension that can be received

Please note the calculator is only for illustrative purposes and final amount will depend on your actual investment amount and actual returns generated
