

# REASONS FOR LIKELY DELAY IN RECEIVING INCOME TAX REFUND

## Income tax returns not verified:

Income Tax Returns verification needs to be done within 120 days from ITR filing for refund to be processed.

## Bank account not validated:

Bank details mentioned in the ITR need to be validated for receiving income tax refund.

- The primary contact details in income tax portal must match with contact details in the bank

## Past dues being adjusted:

If there are dues from previous ITR's, then those will be adjusted against the current refund to be issued.

- If past dues are higher than refund amount, then there would be no refund issued.

## Contact details not updated
